

KEY FEATURES

Sage 300's main features.

Accounting and Finance

Sage 300 allows you to effortlessly integrate your sales and service functions for streamlined, end-to-end financial management with improved financial reporting and compliance.

Sales and customer management

This solution optimises your sales and distribution processes with better sales management.

Purchasing and supplier management

Sage 300 streamlines your entire purchasing process, from order to receipt. Create detailed, accurate records of every purchase with our purchasing management tool.

Business intelligence and reporting

This tool allows you to selectively access critical data to identify any issues as they come up, make an accurate analysis and take immediate action to improve performance.

Inventory and Warehousing

With Sage 300's real-time inventory management software for distributors, you have complete control over your warehouse inventory, can accurately track stock and improve customer satisfaction with ease.

Customer service

Integration with Sage CRM allows you to transform your business into a more customer-centric and efficient organisation.
